

Lo Yoong Khong is a Cluster Director at the Infocomm Development Authority of Singapore (IDA). He has more than 18 years of experience in the public sector infocomm development. One of his current portfolios is to drive the development of innovative services by the private sector by mashing public, private and people sector spatial contents.

He was also involved in the Singapore's central e-Government efforts and spearheaded Programmes such as Mobile Government, Government-to-Business, Government-to-Consumer, Connected Citizen and e-Service Adoption. Some of the award winning initiatives that he was driving included the eCitizen Portal which was awarded the Hitwise Award for 3 consecutive years and the Online Business Licensing Service (OBLS) which was awarded the United Nations Public Service Award. His other past and current portfolios included driving the adoption of infocomm efforts among SMEs in Singapore, conceptualising and managing the Land Management & Transport, Justice & Law clusters initiatives. He was also behind the National Y2K conversion efforts.

He graduated from the University of Minnesota (U.S.) with a Bachelor of Computer Science (Honours) degree in 1990. He also attended the General Management Executive Programme at the Tsinghua University (Beijing) and National University of Singapore. In 2008, he was conferred the Public Service Administration medal by the Singapore's President.
